THE MONSTER. The details of the recent tragedy in St. Louis read more like a romance than a reality, and the desperate bravado of the dying scoundrel eclipses the most sensational creations of fiction. It is to be hoped for the credit of humanity that the man is insane upon the subject of taking human life; yet the methodical manner in which he pursued his criminal vocation-his cool and desperate nerve—his murderous vindictiveness-all have a tendency to demonstrate that he is a depraved. vicious wretch, fearing neither God

nor mau. From the accounts given by the officers who have been on his trail like sleuth hounds for months, and the circumstantial evidence that has been developed through their efforts, there is no doubt but that Rande, as he calls himself, is the author of the murder at St. Elmo, which produced such a sensation throughout the country last August. Be that as it may, there is no chance for escape now: for should he recover from his wounds (which is highly improbable,) he will have to pay the penalty for the assault upon. and perhaps murder of, Officer White.

One significant circumstance in this dare devil's conversation is his decla ration that he took the outlaw Hilde brand for a model. He appears to have an insatiable desire for notoriety, and his acts seemed to have been su perinduced by a diseased and depraved imagination. Byron was his favorite poet-Hildebrand his model! studied for the ministry, yet denies the Saviour. He is an educated man, with an intellect above mediocrity, vet he preferred the life of a vagabond and murderous thief to that of an honest man. He kills an officer while in the discharge of his duty and glories in it, vet, upon learning that he leave a family without support, he defor the benefit of the officer's wife!

Since the above was written, yester-Rande has been fully identified, and he is without doubt the St. Elmo nitely. murderer. Instead of being the chiv notoriety-seeking braggart.

THE VANDERBILTS.

There is said to be a skeleton in every household. Rich men, of course, can indulge in the luxury of several. When Singer, the sewing-machine millionaire, died, an unknown wife stepped out of the closet of obscurity and presented her claim. Society was shocked—the woman wasn't.
